

Dear Parents,

Lift Up Sarpy County a non-profit incorporation that identifies needs and opportunities that impact the long-term success of people in Sarpy County.

Lift Up brings together government and non-profit organizations to share resources, identify challenges and create solutions with the goal of strengthening the protective factors that help families raise happy, healthy children. They have many resources at their disposal and especially want to support and offer assistance to families who have been affected by COVID.

If your family situation has been negatively affected by COVID, or if you are struggling to make ends meet due to other reasons, Lift Up may be able to help you by providing counseling, education or financial assistance.

If you need help, please contact Tanya Gifford, Lift Up Sarpy County Interim Executive Director & Coordinator of Community Response at (402) 293-3842 or tgifford@liftupsarpycounty.org

As always, your information will be kept strictly confidential,
